Volume 35, Issue 1

December 2025

412 articles in this issue

No advantage for patient-specific UKA in comparison with standard UKA regarding clinical and functional results at short-term follow-up

Original Article | Open access | 27 August 2025 | Article: 362

Virtual arthroplasty follow-up (VARF) in total hip replacement: a safe, effective, and sustainable model for post-operative care

Research | Open access | 26 August 2025 | Article: 361

Early outcomes of the synthes femoral neck system for valgus-impacted femoral neck fractures: a multicenter retrospective study

Research | 26 August 2025 | Article: 360

Preoperative MRI abnormalities are not associated with poor outcomes or altered surgical planning in unicompartmental knee arthroplasty: a systematic review and meta-analysis

Review | 22 August 2025 | Article: 359

Continuous outcomes of robotic-assisted total knee arthroplasty trials are statistically fragile

Review | 22 August 2025 | Article: 358

Intramedullary nailing in segmental fractures of shaft of femur: analysis of parameters influencing time to union

Research | 21 August 2025 | Article: 357

Correction: Is lateral decubitus positioning without a traction table a safe option for unstable intertrochanteric fractures? A meta-analysis of randomized controlled trials

Correction | 21 August 2025 | Article: 356

One-year patient-reported outcomes following surgical stabilization of rib fractures

Research | 21 August 2025 | Article: 355

A meta-analysis of the outcomes of large to massive rotator cuff tears treated with direct repair, graft augmentation, or superior capsular reconstruction

Review | 20 August 2025 | Article: 354

Timing and neurological recovery in metastatic spinal cord compression: short and long-term outcomes of the internal bracing technique

**Research** | 18 August 2025 | Article: 353

Radiographic and clinical outcomes of traumatic subtrochanteric femur fracture fixation and reduction methods

Research | Open access | 18 August 2025 | Article: 352

A TACAF-based classification system for thoracic posterior longitudinal ligament ossification

**Research** | 18 August 2025 | Article: 351

DEEP lateral femoral notch sign is associated with lateral meniscus tear and non-spherical lateral femoral condyle in ACL deficient knee

**Research** | 16 August 2025 | Article: 350

American society of anesthesiologists grade and association with joint specific outcome, health-related quality of life, readmission and mortality risk after hip and knee arthroplasty

**Research** | 14 August 2025 | Article: 349

Spin and reporting bias in the use of platelet-rich plasma for the treatment of knee osteoarthritis

**Research** | Open access | 12 August 2025 | Article: 348

Functional results of surgically treated paediatric pelvic fractures are as good as conservatively treated ones: retrospective evaluation of 64 patients

Research | 12 August 2025 | Article: 347

Single-bundle vs. double-bundle isolated posterior cruciate ligament reconstruction: a retrospective cohort study on time to work and functional outcomes

Research | 12 August 2025 | Article: 346

The use of navigation to achieve planned coronal alignment during cemented revision total knee arthroplasty: a technical note and case series

Research | 11 August 2025 | Article: 345

Fracture of Children's Both-Bone Casting study (#CBBC)—A regional experience

Research | 11 August 2025 | Article: 344

Risk factors for failure of distal femoral nonunion repair

Research | Open access | 10 August 2025 | Article: 343

Hypoalbuminemia associated perioperative mortality, reoperation, and readmission rates among total joint arthroplasty procedures: a systematic review and meta-analysis

Original Article | 09 August 2025 | Article: 342

Intrathecal nalbuphine at two doses reduces opioid use and pain after total knee arthroplasty: a randomized controlled trial

Research | 08 August 2025 | Article: 341

Incidence and patient-reported outcomes of patella fractures following bone-patellar tendon-bone autograft anterior cruciate

ligament reconstruction: a propensity-matched Cohort analysis

Research | 07 August 2025 | Article: 340

Prevalence and impact of preoperative osteoporosis on healthcare utilization and patient-reported outcomes in primary total knee arthroplasty

Research | Open access | 04 August 2025 | Article: 339

Clinical outcomes of posterior hindfoot endoscopic surgery using 1.9-mm-diameter needle arthroscopy for posterior ankle impingement in athletes

Research | 04 August 2025 | Article: 338

The results of anterior cruciate ligament reconstruction with allograft versus autograft: a systematic review and meta-analysis

Review | 03 August 2025 | Article: 337

Hyperbaric oxygen therapy is effective and safe for femoral head osteonecrosis: a prospective midterm outcome study

Research | 02 August 2025 | Article: 336

Dual tension band wiring for adolescent supracondylar fractures of the humerus: mechanical assessment and a clinical series

Research | 01 August 2025 | Article: 335

Traumatic extensor tendon repairs: is the operating room necessary? A comparative study

Research | 31 July 2025 | Article: 334

Does polyangular double plating lead to less complications than monoaxial locking implants in the treatment of complex distal humerus fractures?

Research | 31 July 2025 | Article: 333

Total shoulder arthroplasty in patients with degenerative cervical spine disease: Does cervical spine surgery affect outcomes?

Research | 31 July 2025 | Article: 332

Outcomes of revision surgery with reconstruction for patellar tendon re-rupture: a case series study

Research | 30 July 2025 | Article: 331

Incidence and outcomes of radial nerve palsy in distal third diaphyseal humerus fractures after surgical fixation

Research | 30 July 2025 | Article: 330

Intra-patient comparison of trapeziectomy with LRTI and dual mobility prosthesis for trapeziometacarpal osteoarthritis: a multicenter observational study

Research | Open access | 29 July 2025 | Article: 329

Triceps-sparing versus triceps-splitting approaches for OTA 12A-C and 13A2-3 distal-third humeral shaft fractures have similar 1 year functional outcomes

Research | 29 July 2025 | Article: 328

Challenging the neutral axis: 15-year results of under-corrected varus in total knee arthroplasty

Research | 26 July 2025 | Article: 327

Do mini-fragment T-plates allow for more proximal rafting than pre-contoured anatomic plates in lateral split-depression tibial plateau fractures?

Research | Open access | 26 July 2025 | Article: 326

Total knee arthroplasty in post-traumatic *versus* degenerative osteoarthritis: a meta-analysis of outcomes

Research | 26 July 2025 | Article: 325

Athletic identity—fear avoidance relationships of high musculoskeletal injury risk adolescent athletes during return to sport rehabilitation: a pilot study

Research | 25 July 2025 | Article: 324

Frailty and femoral periprosthetic fractures around the hip: outcomes in nonagenarians

Research | 25 July 2025 | Article: 323

Mid-term results of treatment of traumatic knee osteochondral fractures in pediatric and adolescent population with bioabsorbable implants

Research | 25 July 2025 | Article: 322

Navigating osteonecrosis of the femoral head: from diagnosis to innovative treatment techniques

Review | 25 July 2025 | Article: 321

Identifying risk factors for systemic complications following fracture-related infection

Research | 24 July 2025 | Article: 320
